## Make a lasting difference, with a gift in your Will.

Having a Will is so important for your family. By making one you are ensuring that they are provided for. Here at Bolton Hospice we know your family comes first. A small gift or even 1% of your estate will really make a lasting difference.

Patients and their families often tell us that the care they received from Bolton Hospice has gone far beyond their expectations – we want to continue offering this level of care well into the future. Leaving us a gift in your Will, will help us keep caring for families in Bolton when they need us the most.

### Anne Davidson Bolton Hospice Volunteer

Anne, a former nurse, recognised the value of the hospice to Bolton and wanted to give something back.

“People think patients only come to the hospice to die, but it’s a very peaceful, upbeat place and both patients and family are cared for with love and respect. It really is a wonderful place and I have made many friends over the year at the hospice, both volunteers and staff.

The hospice is a charity and everything is free for Bolton families. I have experienced first-hand the care given by doctors and staff here, as a close friend died two years ago in the hospice and I feel very privileged to work in this wonderful place.

My husband’s family and mine didn’t have anything to give us – we are kind of the first generation who are able to leave something in our Will. Your first priority is to protect your immediate family but if you consider a donation to the hospice after this, it means the people of Bolton will continue to have the special care required for end of life. I see how every amount counts at the hospice. If you leave a gift, no matter how small, or how big, good work will be done with it.”
