Our total spending was **£6,987,580**

4 includes £38,773 of restricted expenditure

For every **£1** we spent on income generation we raised **£2.56**.

Impact Report 2024–2025

“Without the hospice I have no idea how we would have coped as a family. I will be forever grateful for all the love, care and support.”

A message from our CEO

"This impact report showcases not only the specialist care we continue to provide, but also our commitment to widening our reach in the community, to sustainability, and to securing a fairer funding deal.

Thank you for making these diverse and vital achievements possible."

Dr (h.c) Leigh Vallance

These are just a few of the achievements made possible thanks to your support over the past year...

Our Astley Bridge Shop & The Old Bank Café won the North West region category in the UK's favourite charity shop awards...

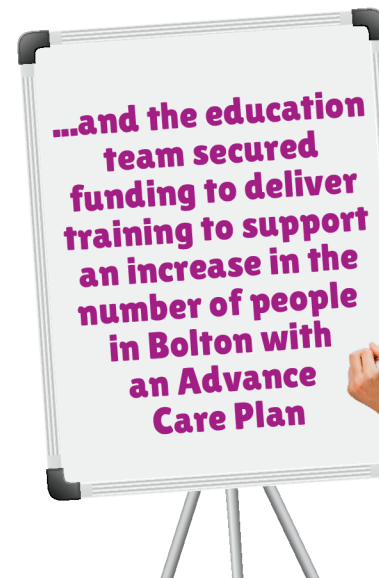

...and we were shortlisted in the Environmental & Sustainability category at the 2024 Bolton Business Awards in recognition of our efforts to reduce our impact on the environment.

We hosted a very successful Diwali open day event in the Wellbeing Hub, bringing new members of our community into the hospice.

...and the education team secured funding to deliver training to support an increase in the number of people in Bolton with an Advance Care Plan

We brought back our popular Bubble Rush event raising over £40,000...

...and as part of a major update to our weekly lottery, we introduced new prizes, extra chances to win, and a rollover jackpot – generating an additional £84,000 so far.

And after months of campaigning for fairer funding for hospices, the government announced a £100 million capital funding boost for hospices over two years...

...a huge step forwards in securing a fairer funding deal!
